DETAILED ACTION

This Office action is in response to the communication filed 10-4-05.

Claims 1, 2, 6-11 are pending in the instant application.

Election/Restriction

Pursuant to 37 C.F.R. 1.142(a), upon further consideration, an examiner's action on the merits of the amendments and arguments filed by applicant on 10-4-05 insofar as they pertain to the elected invention is hereby deferred until a second election has been made. (See MPEP 810.02 and 811)

Please elect two additional nucleotide sequences (in addition to the elected SEQ ID NO: 7) from claims 1 and 10, for the reasons set forth below:

Pursuant to 35 U.S.C. 121 and 37 C.F.R. 1.141, the nucleotide sequences listed in claims 1 and 10 are subject to restriction. As per M.P.E.P. 2434, "the Commissioner has partially waived the requirements of 37 C.F.R. 1.141 and will permit a reasonable number of such nucleotide or amino acid sequences to be claimed in a single application." Those sequences which are patentably indistinct from the sequence(s) selected by the applicant will also be examined.

Claims 1 and 10 specifically claim nucleotide sequences encoding antisense oligonucleotides targeting various target nucleic acids, and these individual SEQ ID Nos. are listed in claims 1 and 10. Each of these antisense sequences is considered to be structurally independent, because each of these sequences has a unique nucleotide sequence, and each targets a specific region of a particular gene or a specific target

gene. A search of all the sequences claimed presents an undue burden on the Patent and Trademark Office to search and examine all of the recited sequences. In view of the foregoing, applicants are required to elect up to two more nucleotide sequences (in addition to the previously elected SEQ ID NO: 7) from claims 1 and 10.

The inventions are distinct, each from the other because of the following reasons:

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
